P2 FEATURES OF KARADA KIREI

Designed for Easy Use in Medical and Care Settings

A no-rinse cleansing and moisturizing lotion for one-step care.

EFFECTIVE, GENTLE CLEANSING

Plant-derived amino acid cleansing ingredients gently lift away impurities.

NO WATER / NO RINSING

Simply spray and wipe. Ideal when bathing or washing is difficult.

CLEANSES & MOISTURIZES

Hokkaido sugar beet-derived moisturizer helps retain moisture.

360° SPRAY

Sprays easily at any angle for convenient use in care settings.

WASH · MOISTURIZE · PROTECT

Carefully Selected Ingredients

WASH

Plant-derived amino acid cleansers gently lift away impurities.

MOISTURIZE

Hokkaido sugar beet-derived moisturizer helps retain moisture.

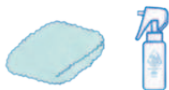

PROTECT

Skin-conditioning ingredients help protect from dryness.

3 EASY STEPS

1 PREPARE A TOWEL

Use a soft towel, gauze or wipe.

2 SPRAY

Spray directly onto the skin.

3 WIPE GENTLY

Gently wipe away impurities.

FREE FROM

Parabens · Alcohol · Artificial Colors · Synthetic Fragrances · Mineral Oil

A mildly acidic formula designed with sensitive skin in mind.

P3 Research and Evaluation with Medical and Care Professionals

With safety as our highest priority, we develop practical skincare products in collaboration with medical and care professionals.

1 SAFETY EVALUATION

Testing conducted by external laboratories

A range of safety evaluations supports daily use on delicate skin, including that of infants and older adults.

24-HOUR PATCH TEST

Evaluates potential skin irritation.

STINGING TEST

Evaluates stinging or discomfort.

EYE IRRITATION ALTERNATIVE TEST

Evaluates potential eye irritation.

REPEATED-USE TEST

Evaluates skin after repeated application.

QUALITY & STABILITY TESTS

Microbiology, pH, viscosity & stability.

These tests do not guarantee that irritation will not occur in every individual.

Tests conducted by external laboratories.

2 COLLABORATIVE RESEARCH

With medical and care professionals

Professor Hajime Inoue

Professor Emeritus, Tottori University
Former Dean, Faculty of Medicine

Skincare expert and product development advisor

- Collaborative research in medical and care settings
- Extensive product development experience
- Expertise in skincare for infants and older adults
- Ongoing professional advice and supervision

FIELD NEEDS

RESEARCH

IMPROVEMENT

MONITORING

3 ACADEMIC PRESENTATIONS

OSAKA DIALYSIS RESEARCH SOCIETY

Presented findings on cleanliness and skincare around vascular access sites in dialysis patients.

EAST ASIAN NURSING SCHOLARS FORUM

Presented experiences and findings from the use of KARADA KIREI for older adults.
Conference names and details are partially abbreviated.

4 VERIFIED BY OBJECTIVE DATA

99.9% BACTERIAL REMOVAL BY WIPING*

Confirmed by external testing.

9-YEAR STABILITY TEST COMPLETED

Guaranteed shelf life: 5 years

Scientific evidence and professional collaboration for real-world care.

FOR A WIDE RANGE OF MEDICAL AND CARE NEEDS

Hygiene and moisturizing care from scalp to toe.

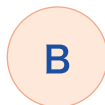

SCALP

Cleansing & moisture

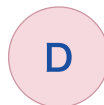

FACE

Face & mouth area

BODY

Whole-body care

DELICATE AREAS

Intimate hygiene

FEET

Soles & between toes

APPLICATIONS IN MEDICAL AND CARE SETTINGS

1 BED BATH / HOME CARE

When bathing is difficult, cleanse and moisturize the whole body or selected areas without water.

2 TOILETING / DIAPER CARE

Moisten urine or stool, then wipe gently. Supports skincare after toileting and diaper changes.

3 INTIMATE CARE

No rinsing needed. Cleanses and moisturizes after toileting or when bathing is difficult.

4 DIALYSIS / ACCESS CARE

Helps remove adhesive residue, cleanse and moisturize surrounding skin in one step.

Use under professional guidance.

5 DIALYSIS / ACCESS CARE

Cleansing and skincare around vascular access sites for daily cleanliness between treatments. Avoid puncture and wound sites.

6 FOOT / SCALP CARE

Gently cleanses and moisturizes areas that are difficult to wash, including the feet and scalp.

HYGIENE CARE DURING DISASTERS & WATER OUTAGES

DRY SHAMPOO

Scalp cleansing without rinsing

FACE CLEANSING

Removes dirt and helps retain moisture

BIDET ALTERNATIVE

Intimate hygiene when water is limited

SHELTER HYGIENE

Whole-body cleansing in evacuation shelters

360° spray bottle for convenient use in medical and care settings.
